

SJRWMD Proposed Doctors Lake Water Improvement Project

Presented at Orange Park, Fl – 8/15/2018

1. Septic to sewer - Extend CUA infrastructure to serve lakeside neighborhoods currently on septic systems.

Funding: \$1,500,000

2. Individual treatment systems - Utilize new technology to provide onsite nutrient reduction.

Funding from Legislature to remove nutrients in home septic systems.

Funding: \$1,500,000

3. Enhanced wastewater treatment - Investigate innovative technology to reduce nutrients in waste water effluent. Goal is a reduction of phosphorus from 1% to 0.1%.

Funding: \$1,500,000 - If project is successful funding will be extended.
